Moving forward

What should we do if we do not want to cross over for fear of disappointment? Many people ask questions about how to moving forward. Make a living and learning Progressive. It has many reasons. If we never try to do it ourselves. Finding it I cannot progress as I hoped. If we slowly move forward, not accelerate, we will not be able to experience the surroundings along the way. This will allow us to spend more time with ourselves. At this time, it may not be us who are looking for ways to go through things. It can have many people are doing and go through

Move forward for each person may have different goals. The path of every one of us. Not smooth if we do not to try, we may not meet what we hope. The path we pass through may be a lot of obstacles. Maybe we did not meet the good thing that as we want. But when we chose to walk follow this route. Do not be afraid, but choose to go ahead and move on. To meet the success and purpose set. This route may be full of feelings, sadness, afraid, happy and many other feelings. Just do not be afraid to do it. And do not be afraid to work out what we have done. Always think that what we are going to do. Right and fair. In my life, I have never met anyone who has to go through anything hard. One day I saw a woman's news. He has cancer and is dying soon. The doctor told her that she had only 1% to survive but she never give up. She always fights through. She wants to spend the rest of her life worth it. Finally, she can step forward for the deadly disease with the encouragement of many people around her. Another person in my heart is Toon Bodyslam He is the singer and he like to help people. He is a sacrifice to everyone and as a person who leads many people through death by collecting money to help poor hospitals, not enough equipment. And a lot of people hurt. He must give up both time and effort. His run was to pace. Step in every time can help many people. He has seduced many people. Moving forward the meaning it isn't only cross over the barrier but on the way, we can help people who cannot do the same thing that

him do. I respect the two of them very much. They are a good prototype. First person is needed to survive in spite of having less chance of survival. And the second person goes forward to help others. Every time we progress, we will have more experience. Each experience will help us develop. Will make us better and have more patience. Moving forward of each person may not be the same. I'm think moving forward is learning. I want our school to progress with a fun life. Every time we learn something new. It will be difficult. So we have to be diligent. To pass this difficult study. Some may want to make Thailand's politics more advanced. Have less cheat. Thailand will have to step up, it must develop social environment and the Thai people must. Progressive development together. It has guidelines for the development of the country. Then the main thing to develop is. Thai people must be strong and strong. People will move forward with Thailand. About business. Everyone wants to make their own business as well as progress so that people are interested in it. There is no thing that no need for progress or development. But in everything, it cannot be progressive if we do not try to do it. Attempts and intentions are what lead us to the success we hope for.

We must be ready to fight the problems that come through. Do not be afraid to walk forward because the people when they walk, they cannot turn back. But I look forward to the past. Although the road will not be worth it. But when our minds are determined not to fear anything. Confidence in this will be successful. Dare to face what will happen consciously. This life must be worth it. Do what you want the past it's not important because we cannot go back to the chance nor did it again so doing good in the present is what we should do because of our actions, it will result in the future. The past it's not important because we cannot go back to chance nor did it again so doing good in the present is what we should do because of our actions, it will result in the future. Keep up the good work. Do not despair to the dream. The obstacle is to push. You can are looking for encouragement from around you, father, mother, lover or even this article will be encouragement. We will move forward at the same time. When thinking of going forward. Please do not look back, unfortunately. If you try your best and don't give up, you'll success in whatever you are doing.
